

# How to help California Condors

- Teach others of the importance of non-lead ammunition
- Throw away trash in the right way to prevent microtrash from collecting in the environment
- Drive safely to protect wildlife and prevent roadkill so that condors don't get hit by cars while they scavenge
- Report observations of interesting/rare species or behaviors to land management agencies
- Protect open landscapes that condors rely on
- Volunteer for condor recovery and awareness
- Visit here for more info:
